

Request Interface

Changes since January

Future plans

February 1999

- Began checking circulation status when possible. System warns users if all locations are non-circulating.

March 1999

- Added example of PIN to form.
- Removed item numbers from error messages.
- Added intermediate screen to telnet link.
- Expanded HELP contents

April 1999

- Removed "Activate" and "Create" Profile buttons from Request form.
 - Added instructions on how to activate or create a Profile to save patron information.

Future plans

- Expand Help section to include Patron Database loading news.
 - Should appear later this summer.
- Revise form so that it uses a pull-down menu for DDS instead of radio buttons.
 - We are investigating methods for showing only the DDS service available for the selected home campus.
