

A division of the American Chemical Society

Dear SciFinder Scholar Key Contact:

CAS is pleased to announce that access to the web version of SciFinder[®] will soon be available to your academic institution!

- The new version of SciFinder runs in a web browser—saving your institution time since no software download is needed.
- Faculty and students can access both the web and client versions.

Registering for web version of SciFinder

You will receive an additional SciFinder username and password that will allow you to create a registration URL for your institution's "Authorized Users" as defined in your SciFinder Scholar License Agreement. This registration URL must be access controlled so that only Authorized Users have access. The registration URL must not be accessible on the public Internet. This is consistent with the current policy for your site.prf file used with the client software version of SciFinder Scholar.

The registration URL for your institution will allow your Authorized Users to create their own username and password to access and use the web version of SciFinder.

- Individual's username and password are strictly confidential and may not be shared with any other person.
- Individuals must have an active university email address in order to establish a username and password for the web version of SciFinder.
- CAS may require passwords to be changed as needed.

Addendum to SciFinder Scholar License Agreement

Since CAS will provide you with a new way to access SciFinder via a web browser using a public URL, you will need to acknowledge your understanding of appropriate use. Please have an authorized individual sign this document below to indicate acceptance of conditions listed above and return via fax to SciFinder Administration at [redacted]. This letter will serve as an addendum to your institution's SciFinder Scholar license agreement.

Upon receipt of your acceptance, CAS will send you an email that will include:

- Your Administrator's username and password
- Instructions for creating the Registration URL
- Instructions for Authorized Users to complete individual registration for the web version of SciFinder

Privacy of registration information

CAS will not disclose personal information to outside organizations for its use without your consent. Please see our Privacy Policy at <http://www.cas.org/legal/privacy.html>. If you have any questions regarding this document please contact CAS at [redacted]

Sincerely,

Vice President, Sales
