# California Digital Library Grants List

| Grantor/Admin | Name of Grant | Term | Description | Partners |
|---|---|---|---|---|
| Center for Research Libraries (CRL) | Digital Library Support Agreement for the Print Archive Preservation Registry (PAPR) | 1/2014 - 12/2016 | PAPR will support research library and consortial efforts to archive and manage critical print serial collections in an informed and cost-effective manner. PAPR will feature a searchable database of information about current print archiving programs and holdings worldwide, including characteristics such as retention period, archiving facilities and conditions, availability in digital repositories, level of content validation, and access provided. The California Digital Library is providing system design and development services and will host the PAPR database and system under an agreement with CRL. | |
| Council On Library and Informaiton Resources (CLIR) | Postdoctoral Fellowship in Data Curation for the Sciences & Social Sciences | 7/2016 - 8/2018 | CLIR Postdoctoral Fellows work on projects that forge and strengthen connections among library collections, educational technologies, and current research. The program offers recent PhD graduates the chance to help develop research tools, resources, and services while exploring new career opportunities. Host institutions benefit from fellows' field-specific expertise by gaining insights into their collections' potential uses and users, scholarly information behaviors, and current teaching and learning practices within particular disciplines.  These two-year fellowships, which will be partially supported by a grant from the Alfred P. Sloan Foundation, provide recent Ph.D.s with professional development, education, and training opportunities in data curation for the sciences and social sciences. The fellows' work draws upon their disciplinary expertise in order to help advance data curation practices and services at their host institutions. | UC stakeholder community members |
| Gordon and Betty Moore Foundation | Unstricted Gift Fund | 11/2009- | To support CDL projects. | N/A |
| Gordon and Betty Moore Foundation | Unstricted Gift Fund | 11/2015- | to support the convening of data science/metrics experts;  to determine next steps for promoting data metrics in the scholarly community. | N/A |
| JSTOR | JSTOR Paper Repository Agreement | 2009-2016 | Project includes the assembling, validating and archiving of annual moving wall extensions for 1st group of journals up to and including all issues released by JSTOR | UCLA |
| Microsoft Research Connections | Sharing, Preserving, and Publishing Tabular Data Gift Fund | 7/2012- | | N/A |
| Open Knowledge Foundation | Unstricted Gift Fund | 2/2015- | To support the convening of data science and data tool makers in May 2016 at csv,conf,v2. | N/A |
| The Andrew W. Mellon Foundation | Western Regional Storage Trust Phase 2: Farther West | 10/2013- 10//2016 | During the proposed Phase 2, WEST members wish to continue archiving print journal backfiles, incorporate the lessons learned, formally assess the program, undertake a strategic planning initiative to make significant progress toward sustainability, and provide additional system support for project activities. WEST seeks support from the Andrew W. Mellon Foundation for planning and assessment, and certain operational activities (archive creation, systems support, and program management). | UC San Diego |
| University of California, Davis (Prime: The Andrew W. Mellon Foundation) | Pay It Forward:  Investigating a Sustainable Model of Open Access Article Processing Charges for Large North America Research Institutes | 1/2015 - 6/2016 | The project is designed with this planning effort builds on work initially done by the California Digital Library to assess the implications on our budget of emerging APC levels and proposes an investigation to help us understand: <br> -The overall cost to publish scholarly journals and the value of different components to editors and authors, <br> -What the emerging APC model would cost UC and similar large research institutions under a variety of rigorously-modeled scenarios, and <br> -Reasonable financial models for publishing research that cover basic costs and ongoing innovation. | Harvard University, Ohio State University, and The University of British Columbia, UC Ten Campuses |

| Grantor/Admin | Name of Grant | Term | Description | Partners |
|---|---|---|---|---|
| **Closed Grants** | | | | |
| Alfred P. Sloan Foundation | Data Management Planning Tool 2: Responding to the Community | 1//2013-5/31/2014 | To improve on the Data Management Planning Tool (DMPTool), a free, easy-to-use application that guides researchers through the process of creating data management plans. We will build on the success of the tool to create DMPTool2, and use this improved version as a centerpiece for encouraging collaboration in data management efforts across all stakeholder groups (researchers, institutions, funders, libraries). | UIUC and UVA |
| Alfred P. Sloan Foundation | Dash: Improving Community Repositories for Better Data Sharing | 11/2014 - 10/2015, Ext April 2016 | Dash will provide a way for organizations to allow self-service deposit of datasets via a simple, intuitive interface that is designed with individual researchers in mind. Researchers will be able to document, preserve, and publicly share their own data with minimal support required from repository staff, as well as able to find, retrieve, and reuse data made available by others. The Dash platform will be based on the existing DataShare service , collaboratively developed by the University of California Curation Center (UC3) at the California Digital Library (CDL); the University of California, San Francisco (UCSF) Library and Center for Knowledge Management; and the UCSF Clinical and Translational Science Institute (CTSI). DataShare was intended as a working prototype: it provides the basic functionality required to meet the needs of a simple archiving platform. | |
| California State Library | Counting California State Agency Contract | 4/1/00-9/30/00 | Develop California Counts prototype, a single Web interface to locate ad manipulate data from a variety of government agencies | |
| Center for Research Libraries (Prime Sponsor: The Andrew W. Mellon Foundation) | Center for Research Libraries Print Archives and Preservation Registry | 1/11-12/12 | CRL is working with the California Digital Library to develop the database system and set of related tools and services which comprise the Registry.  Together, these will ingest, manage and process information about individual library holdings of print journals, whether or not they contain ISSN identifiers, and the conditions under which those holdings are archived by libraries participating in CRL, WEST, and eventually other print archiving programs, and available in selected digital repositories.  The purpose of the Registry is to inform planning and decision-making at research libraries on the preservation and disposition of print journal collections. | Center for Research Libraries |
| Center for Research Libraries (Prime Sponsor: The Andrew W. Mellon Foundation) | Center for Research Libraries Print Archives and Preservation Registry | 1/2013 - 12/2013 | CRL working with the California Digital Library has developed the database system and set of related tools and services which comprise the Registry. Together, these ingest, manage and process information about individual library holdings of print journals, whether or not they contain ISSN identifiers, and the conditions under which those holdings are archived by libraries participating in CRL, WEST, and other print archiving programs, and available in selected digital repositories. The purpose of the Registry is to inform planning and decision-making at research libraries on the preservation and disposition of print journal collections. | Center for Research Libraries |
| Center for Research Libraries | CRL PAPR Support | 1/2013-12/2013 | | |
| Council on Library and Information Resources - CLIR (Prime Sponsor: The Andrew W. Mellon Foundation) | Uncovering California's Environmental Collections: A Collaborative Approach | 2/10-2/13 | CDL will provide project oversight, subgrants, training, and tools and services to support institutions with creating finding aids for 33 "hidden" collections, thematically documenting the California environmental history | California State University Chico, California State University Fresno; Humboldt State University; UC Berkeley, Davis, Irvine, Los Angeles, and Riverside; and University of Southern California. |
| Council On Library and Informaiton Resources (CLIR) | Postdoctoral Fellowship in Data Curation for the Sciences & Social Sciences | 7/2013 - 9/2015 | The fellow's work will focus on data publication, including but not limited to (a) its potential value as a scholarly endeavor that contributes to data sharing, reuse and preservation, and (b) how data publication may fit into libraries' current service offerings. | All UC campus libraries and Meseums |
| Digital Public Library of America (DPLA) | DPLA Digital Hubs Pilot Project: Building a California Statewide Framework | 3/2014 - 9/2015 | The goal of this pilot project is to lay the foundation for DPLA Hubs within California.  This would include the establishment of a statewide Content Hub at the CDL -- as well as paving the way for additional partnerships with emerging Hubs in the state.  As an outcome of this project, we will have an initial iteration of a functional statewide framework in place, to subsequently build on beyond the pilot phase. | The CDL will also collaborate with two large-scale potential emerging DPLA Hubs -- the San Francisco Public Library and Los Angeles Public Library |
| EDINA (Prime Sponsor: JSIC) | EZID UK | 8/12-4/13 | To establish a live replica in the UK of the California Digital Library (CDL) EZID service, and extend the service to support individual requests for identifiers. | JISC |
| Gordon and Betty Moore Foundation | Microsoft Excel Add-in Project | 8/11-/12 | The University of California Curation Center (UC3), part of the California Digital Library (CDL), will work with University of California researchers, the NSF DataONE community, and Microsoft (MS) Research and to create open-source MS Excel extensions, called "add-ins," that will make it easier for scientists to record and export spreadsheet data in re-usable ways, fostering integration, new uses, and hence new science.  Creating such add-ins for as widely deployed a tool as Excel will transform the conduct of scientific research by enabling and promoting data publishing, sharing, and archiving. | Microsoft Research Connections |
| Hewlett Foundation | New frontiers in the digital library: social and ecological diversity of the American West | 10/1/03-10/31/07 | Assemble an integrated virtual collection on the West; develop collection tools and recommendations. | Colorado Digitization Project, Harvard University Libraries, Indiana University Library, Interactive University, University of California Berkeley, Library of Congress, American Memory, |
| HR 1905/Library of Congress | California Cultures | 9/1/01-8/30/02 | Digitization of materials related to ethnic groups in California | UC Libraries |
| Institute of Museum and Library Services | Museums and the Online Archive of California II (MOAC II) | 12/31/02-12/31/04 | Recommend strategies to the CDL for improving the OAC digital resource of online museum, library and archival content. | UCB Bancroft Library, UCB Berkeley Art Museum, UCLA Graduate School of Education and Information Studies, UCLA Grunwald Center, Phoebe Hearst Museum of Anthropology |
| Institute of Museum and Library Services | National Leadership | 12/31/99-12/30/01 | CDL to lead a group of 8 museums in evaluating the capabilities of EAD | Bancroft, BAM/PFA, UC Riverside, UCLA, Japanese American National Museum, Hearst Museum, Oakland, Museum, Stanford University Museum of Arts |

# California Digital Library Grants List

| Grantor/Admin | Name of Grant | Term | Description | Partners |
|---|---|---|---|---|
| Institute of Museum and Library Services (IMLS) | Improving Data Stewardship with the DMPTool: Empowering Libraries to Seize Data Management Education | 10/2012-9/2014 | The DMPTool project is a community-based initiative and represents the collaborative efforts of several institutions, including CDL, DataONE, the Digital Curation Centre, the Smithsonian Institution, the UCLA Library, UC San Diego Libraries, University of Illinois at Urbana-Champaign Library and Office of Cyber-infrastructure, and the University of Virginia Library. These institutions have come together to design the system, develop the infrastructure, and create the content for the DMPTool. The result is a freely available web service that guides users through the process of creating a data management plan by providing them with prompts based on what funders want grant applicants to address, and allowing users to edit, save, share, print and download their data management plans. In addition, institutions are able to customize the DMPTool for their users by adding links to local resources and services, and by adding help text or suggested answers aimed at their researchers | |
| Library of California | Library of California Periodicals/serials Database Production | 7/1/01-6/30/02 | Ongoing production of database merging three major California serials union lists | |
| Library of Congress | National Digital Information Infrastructure and Preservation Program (NDIIPP) Web-at-Risk Phase 3 | 9/04-9/10 | CDL to develop a sustainable business model for Web Archiving Service and for CDL's curation micro services that support the Web Archiving Service; promote and increase the visibility of WAS to a range of users internal and external to the California Digital Library. | New York University Library; University of North Texas Library; and Stanford University Library |
| Library of Congress | The 6th International Conference on Perservation of Digital Objects (iPres 2009) | 8/09-10/09 | The support of 6th iPres Conference | |
| Library of Congress | The Unified Digital Format Registry (UDFR) | 7/10-6/11 | The Unified Digital Format Registry (UDFR) will provide a reliable, sustainable and publicly accessible knowledge base of file format information for use primarily by the digital preservation community. UDFR will unite the currently separate PRONOM and Global Digital Formats Registry projects. UDFR will support the core features of the registry, including the ability to search, browse, add, modify and export registry content; support access to registry information from both a web user interface as well as from published web-based APIs, and will be populated with format and environment information from the PRONOM Database. | British Library, Georgia Institute of Technology; Harvard University Library; Koninklijke Bibliotheeke; Library and Archives Canada (LAC); National Archives and Records Admin (NARA); National Archives, UK (TNA); University of Illinois at Urbana-Champaign |
| Library Services and Technology Act (LSTA)/California State Library | California Statewide Serials Project | 10/1/98-9/30/99 | Project to merge three major California serials union lists | |
| Library Services and Technology Act (LSTA)/California State Library | California Statewide Serials Project | 10/1/98-9/30/99 | Project to merge three major California serials union lists | |
| Library Services and Technology Act (LSTA)/California State Library | Metadata collection, creation and sharing project for government produced social science datasets | 7/1/02-6/30/03 | Create a web-based data and discovery system for campus social science collections. | |
| Library Services and Technology Act (LSTA)/California State Library | Historical Census Rescue Project | 7/1/02-6/30/03 | Extract and archive historic census data. Make available with web interface. | UC Data Survey Research Center, UC Berkeley Library |
| Library Services and Technology Act (LSTA)/California State Library | Online Archive of California | 10/1/98-9/30/99 | Establish the Online Archive of California as a comprehensive resource by converting finding aids of non-UC institutions | Non-UC Institutions |
| Library Services and Technology Act (LSTA)/California State Library | Sustainable Online Archive of California Pilot Project (Year 2) | 6/18/01-9/30/02 | Explore model to facilitate participation in OAC by non-UC institutions | Infopeople |
| Library Services and Technology Act (LSTA)/California State Library | Testing a Model for a Sustainable Online Archive of California (Year 3) | 10/1/02-9/30/03 | Explore model to support access to and persistence of standardized metadata and digital images. | Infopeople |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources: Preservation and Access (Year 4) | 10/1/03-6/30/04 | Build an infrastructure for preservation and access to local history digital resources. | Infopeople |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project: Administration and Retrospective Data Capture (Year 5) | 7/1/04-6/30/05 | Establish a service bureau model and assess 98/99 years for data capture. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project: Administration and Retrospective Data Capture (Year 6) | 7/1/05-6/30/06 | Metadata enrichment and normalization. LHDRP digital collections and content site building. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project (Year 7) | 7/1/06-6/30/07 | Improve and maintain a mature preservation model, with storage in DPR. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project (Year 8) | 6/30/07-7/1/08 | Support creation of standardized digital objects using ContentDM and EAD. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project (Year 9) | 7/1/08-6/30/09 | Support creation of standardized digital objects using ContentDM and EAD. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project (Year 10) | 7/1/09-8/1/10 | Ongoing coordination, access and preservation services. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project (Year 11) | 7/1/10-8/1/11 | Ongoing coordination, access and preservation services. | Infopeople, OCLC, Califa |
| Library Services and Technology Act (LSTA)/California State Library | Counting California | 8/25/00-9/30/01 | Add content to Counting California, enhance user tools and develop training and outreach materials | |
| Library Services and Technology Act (LSTA)/California State Library | Japanese American Relocation Digital Archive (JARDA) | 9/14/99-9/30/00 | Create JARDA, a digital thematic collection within the OAC of the experience of Japanese Americans in the World War II internment camps | California State Archives, California Historical Society, CSU Fullerton, CSU Sonoma, Japanese American National Museum, UC Berkeley, UCLA, Univ of the Pacific, USC |
| Library Services and Technology Act (LSTA)/California State Library | CDL/LOC Access to Environmental Information (includes extension grant) | 9/16/98-9/30/00 | Using environmental information as focus, demonstration of benefits of LOC/CDL cooperation | |
| Library Services and Technology Act (LSTA)/California State Library | Local History Digital Resources Project (Year 12) | 7/1/11-9/30/12 | Ongoing coordination, access and preservation services. | Infopeople, OCLC, Califa |
| Microsoft Research Connections | Microsoft Excel Add-in Project | 8/11-4/13 | The University of California Curation Center (UC3), part of the California Digital Library (CDL), will work with University of California researchers, the NSF DataONE community, and Microsoft (MS) Research and to create open-source MS Excel extensions, called "add-ins," that will make it easier for scientists to record and export spreadsheet data in re-usable ways, fostering integration, new uses, and hence new science. Creating such add-ins for as widely deployed a tool as Excel will transform the conduct of scientific research by enabling and promoting data publishing, sharing, and archiving. | Gordon and Betty Moore Foundation |

# California Digital Library Grants List

| Grantor/Admin | Name of Grant | Term | Description | Partners |
|---|---|---|---|---|
| Minnesota Historical Society | National Digital Information Infrastructure and Preservation Program (NDIIPP) | 3/10-12/11 | CDL will provide project, training, tools and infrastructure to transfer, ingest, store, and report on the Society's Digital content; use funds for development work to build out the micro-services to accommodate Society & California Legislative Counsel content | |
| Minnesota Historical Society (Prime Sponsor: Library of Congress/NDIIPP) | A Model Technological and Social Architecture for the Preservation of State Government Digital Information Project | 06/09-06/10 | Trustworthy technological and social architecture for capturing, managing and providing access to legislative content from California and Minnesota | MHS (PI), National Conference of State Legislatures (NCSL), California Legislative Counsel, State Library and State Archives |
| National Digital Information Infrastructure & Preservation Program (NDIIPP) | Web at Risk, Phase 1 | 12/05-3-08 | Build the Web Archiving Service | UC San Diego Supercomputer Center, Stanford University Computer Science Department, Sun Microsystems, University of North Texas, New York University |
| National Digital Information Infrastructure & Preservation Program (NDIIPP) | Web at Risk, Phase 2 | 1/08-6/09 | Continue work on the Web Archiving Service | UC San Diego Supercomputer Center, Stanford University Computer Science Department, Sun Microsystems, University of North Texas, New York University |
| National Endowment for the Humanities (NEH), Preservation and Access Research and Development | Social Network and Archival Context Project | 5/10-4/12 | With project partners, create a prototype EAC-CPF repository and access system, whereby users can identify personal, corporate, and family creators and biographical details -- and link off to collection records that we maintain in the OAC (as well as other repositories, such as the Library of Congress, Northwest Digital Archives, etc.). | University of Virginia, UC Berkeley |
| National Science Foundation | Actors in Digital Libraries | 1/14/02-7/15/02 | Support for an international on-line discussion of the requirements of main players in libraries, museums, archives, the publishing industry, higher education, and technology development. | |
| National Science Foundation | Collection Management Systems with Dynamic Constraints | 9/1/03-8/31/06 | Research and development of a fundamental basis for data management systems as a hierarchy of ontologies. | UCSD Supercomputer Center |
| National Science Foundation | Adding Value to the NSDL by Integrating it into Academic Libraries: A Business Proposition and a Service Enhancement | 10/1/03-9/30/05 | Sustainability model for the National Science Digital Library and test of metasearch to integrate NSDL and scholarly content | |
| National Science Foundation (NSF) | Making Data Count: Developing a Data Metrics Pilot | 9/2014 - 8/2015 | Making Data Count: Developing a Data Metrics Pilot The California Digital Library will work with PLOS and DataONE to address what metrics will capture the activity surrounding research data in a valid and credible way. We will design, develop, and prototype data metrics based on field research on data practices; test mechanisms of automatic tracking; explore ways in which the raw, dynamic dataset level metrics (DLM) data be delivered to drive data discovery across data types and research questions; and prototype a flexible report for funders, institutions, and researchers to share DLM results. | Public Library of Science (PLOS) |
| NDIIPP (Library of Congress) | Web at Risk, Sustainability | 6/09-6/10 | Move to a sustainability model for the Web Archiving Service | UC San Diego Supercomputer Center, Stanford University Computer Science Department, Sun Microsystems, University of North Texas, New York University |
| NDIIPP (Library of Congress) | JHOVE2 | 06/08-9/10 | Develop release 2 of widely-used validation tool. | Portico, Stanford University |
| New York University (Prime Sponsor: The Andrew W. Mellon Foundation) | ArchivesSpace: Building a Next-Generation Archives Management System | 7/2012 - 8/2013 | Supported by The Andrew W. Mellon Foundation, this multi-year project aims to integrate Archon and the Archivists' Toolkit (AT) into a next-generation open-source archives management system. The project is a collaboration between the libraries of the University of Illinois at Urbana-Champaign (which developed Archon), and UC San Diego and New York University (which co-developed AT). The CDL's role in this project is to provide independent alpha-testing and "build and release" support, to facilitate the validation and deployment of the ArchivesSpace software. To do so, we will be leveraging our experience with hosting the AT and Archon for OAC contributors. ArchivesSpace will capitalize on the functional strengths of AT and Archon, both of which were released in 2006. The system will provide broad, integrated support for managing archival records and manuscript collections, including tracking collection workflow information; describing materials within collections, including digitized objects; generating finding aids (that can be published through systems such as the OAC); and more. | New York University, the University of Illinois at Urbana-Champaign, and the University of California, San Diego |
| Scholarly Publishing & Academic Resources Coalition (SPARC) | Scientific Communities Initiative (SCI), "Community-Building for eScholarship: Scholar-led Innovation in Scholarly Communication" | 10/15/99-12/31/03 | Support scholar-led community building, policy-setting processes, and governance | |
| The Andrew W. Mellon Foundation | Proposal to Review Technologies for Acquiring, Assembling into Meaningful Research Collection and Persistently Managing the Web-based Documents of the US Federal and State Governments | 10/01/02-9/30/03 | Web Archiving Investigation | |
| The Andrew W. Mellon Foundation | Relevance Ranking and Recommending in an OPAC | 5/1/05-6/1/06 | Assess relevance ranking and personalization systems in the library OPAC | RLG, SIMS, UC Berkeley, UCLA |
| The Andrew W. Mellon Foundation | Researchers Retention of Copyrights and Article Dissemination through Electronic Post-prints: A University of California Sampling Study | 8/15/04-11/1/04 | Research into attitudes toward retaining copyright in scholarly journal articles published by UC faculty. | UCSB Survey Research Center, Office of Scholarly Communication |
| The Andrew W. Mellon Foundation | Northwestern/California JCR Tools for Sharing Content between Open Source Applications and Dissimilar Repositories | 12/2008-8/2010 | In partnership with Northwestern University, expand XTF functionality to integrate with JCR Tools in order to support integration content in XTF and disparate repositories | Northwestern University |
| The Andrew W. Mellon Foundation | Heading WEST: Toward a Western Regional Storage Trust | 10/09-09/10 | a 9-month planning grant to organize a distributed, retrospective print repository service | All UC Campuses, NRLF, SRLF, University of Washington, University of Oregon, OrbisCascade, Arizona State University, California Institute of Technology, Getty Library, Greater Western Library Alliance, Huntington Library, Occidental College, Oregon State University, SCELC, University of Arizona, University of Southern California, Washington State University |

# California Digital Library Grants List

| Grantor/Admin | Name of Grant | Term | Description | Partners |
|---|---|---|---|---|
| The Andrew W. Mellon Foundation | WEST: The Western Regional Storage Trust | 1/11-6/14 | Research libraries, college and university libraries, and library consortia in the Western Region of the United States have developed plans for the Western Regional Storage Trust (WEST), a distributed, retrospective print journal repository program. Under the WEST program, participating libraries will consolidate and validate print journal backfiles at major library storage facilities and at selected campus locations. Planning partners have developed an operating and business model including 1) selection priorities and validation standards based on risk-management principles; 2) agreements governing retention, holdings disclosure, and access; and 3) a business plan that includes governance and cost-sharing proposals. | Through this grant, CDL serves as Administrative Host for WEST, supporting more than 100 research libraries, college libraries, and university libraries, and 3 library consortia, in the western part of the United States. |
| University of Davis (Prime: The Andrew W. Mellon Foundation) | Planning for Investigation of the Institutional Costs of Gold Open Access | 11/2013 - 2/2014 | This planning project will develop detailed plans and partnerships for a large-scale investigation of this issue, designed to answer the question of whether the Gold OA business model is, in fact, affordable and sustainable in the current publishing ecosystem or can be made affordable with appropriate adjustments to the system. | University of UC Davis |
| University of Los Angeles (Prime: Institute of Museum and Library Services-IMLS) | iPres International Preservation Conference | 5/2009-9/2010 | Support of iPres International Preservation Conference | |
| University of New Mexico (Prime Sponsor: NSF) | DataNetOne: Observation Network for Earth | 8/09-10/14 | By creating an infrastructure of technology and standards, people and institutions to support the full life cycle of biological, ecological, and environmental data and tools that enable universal access, DataONE will transform our understanding of ecological processes and conserve life on earth and the environment that sustains it. | Note: CDL is a Co-I. UNM (PI), NECEAS(UCSB), ORNL, Univ TN, Cornell, UC Davis, Univ of IL, Univ of KS |
| University of New Mexico (Prime: National Science Foundation- NSF) | Building a Strong Foundation for DataUp's Success (UNM DataOne Suppl Grant) | 8/2013 - 7/2014 | This is a 12-month project to further develop the DataUp tool. The tool is useful as-is, but it has not reached its full potential as a tool for facilitating data management, sharing and archiving for researchers across disciplines. DataUp has the potential to become a key tool in research data sharing and archiving as envisioned by the NSF DataNet program. To that end, our major project goals for DataUp are to (1) enhance the tool's user experience and add features, and (2) build the open-source community around DataUp. We plan to make improvements to DataUp via an iterative development process with community feedback and input. This community will include the existing DataUp user community, as well as researchers and information professionals from the University of California and DataONE. | |
| University of Santa Barbara (Prime: National Science Foundation-NSF) | Conceptualizing an Institute for Sustainable Earth and Environmental Software (ISEES) | 10/2012-9/2014 | ISEES planning grant is to help articulate the potential role of libraries in an Institute designed to sustain software in order to meet the continuing research needs of the community. ISEES will evaluate the entire software lifecycle, from product conceptualization and selection, through requirements analysis, design, development, testing, deployment, support, and, ultimately, decommissioning. The role of libraries can be envisioned throughout many stages of the software lifecycle from licensing issues to preservation. | UC Santa Barbara |
| University of Virginia (Prime Sponsor: NEH) | The Social Networks and Archival Context Project (SNAC) | 5/10-4/12 | Derive name authority file records (encoded using the EAC-CPF standard) from archival finding aids from the following consortia – OAC, Northwest Digital Archive, Virginia Heritage, and the Library of Congress; Enhance the records by matching them against name authority records from the Library of Congress Name Authority file (LCNAF) and the Getty Vocabulary Program Union Lists of Artist's Names (ULAN); and Create a prototype access system whereby end users can search the resulting set of name authority records and links to the biographical/historical data, and additionally link back to archival finding aids (located at the distributed consortia) associated with the authority records. | University of Virginia and UC Berkeley |
| University of Virginia (Prime: The Andrew Mellon Foundation) | The Social Networks and Archival Context Cooperative Program Planning (SNAC3) | 4/23/2014-4/30/2015 | Project activities will result a comprehensive plan for establishing the cooperative, including the following components: a legal charter for the cooperative hosted by NARA; intellectual property and data ownership policy; an administration and governance plan, including strategic plan for developing sustainable business model; and detailed technical architecture design specifications (including consideration of both professional-user and end-user requirements). | The University of Virginia's Institute for Advanced Technology in the Humanities, NARA, and the UC Berkeley School of Information |
| University of Virginia (Prime Sponsor: The Andrew W. Mellon Foundation) | The Social Networks and Archival Context Project (SNAC) | 4/12-3/15 | The California Digital Library (CDL) at the University of California will contribute programming support, web production work, and user experience research and design and usability testing to the proposed Social Networks and Archival Context Project (SNAC). The CDL's primary role in the project is to enhance the SNAC prototype access system (http://socialarchive.iath.virginia.edu/xtf/search) for searching and browsing the set of EAC-CPF name authority records created by our partners at the University of Virginia, Institute for Advanced Technology in the Humanities (UVA) and UC Berkeley School of Information (UCB). The prototype will demonstrate the ability of archival authority records to enable users to access archival collections by creator, gain biographical and historical context about the creators, learn about | Institute for Advanced Technology in the Humanities, University of Virginia; School of Information, University of California, Berkeley |
