<b>TOTAL FEES</b>		

**Elsevier eBooks Additional Terms and Conditions**

The perpetual access granted hereunder for the above eBooks is subject to payment of a one-time fee set forth in the fee table above and, after the initial year of the term of this Agreement, an annual access fee based on the number of chapters downloaded from such eBooks during the prior twelve (12) months at a rate of US\$0.081 per download, with a minimum annual fee of US\$500 (adjusted annually for inflation and cost increases) for the Subscriber's access to the platform. The annual access fee will not be charged if the Subscriber maintains an annual subscription on SciVerse ScienceDirect online. Elsevier will make available for inspection by a duly authorized auditor of the Subscriber, at the Subscriber's sole expense, the records concerning the calculation of such annual access fee one time per year during regular business hours upon thirty (30) days written notice to Elsevier. In the event that the Subscriber does not pay any eBooks annual access fee or maintain any annual subscription on SciVerse ScienceDirect online, the Subscriber may, at its option, acquire, load and technically format on a server that enables access and use by Authorized Users an electronic copy of such eBooks for cost in accordance with the usage provisions of the Agreement. The copy may not contain links and other features and functionality associated with the online version. A collection discount and a "slippage" discount of ten percent (10%), to account for titles that were expected to appear in the collection but that are not published by the end of the calendar year (31 December), have been applied to the Fees for each "frontlist" collection. If the Fees paid for a "frontlist" collection were greater than the value of the published titles in the collection at the end of the calendar year less the collection discount, Elsevier will credit to the Subscriber the difference. Elsevier's intent is to deliver all titles in the purchased "legacy" eBooks collection(s) by December 31, 2012. But it is possible that the delivery of some titles might take place in 2013 due to unforeseen circumstances.
