

WorldCat Install Update

Install date: Sunday, March 15

Authors: Blaine Davidson, Bob Robertson-Boyd, Laura Endress, Bob Schulz

ENHANCEMENT: SAVING A SEARCH FROM A SEARCH RESULTS PAGE	1
ENHANCEMENT: MORE DISPLAY OPTIONS FOR LISTS	3
ENHANCEMENT: LARGER LISTS SIZES	3
ENHANCEMENT: LIBRARY AFFILIATION PRIVACY SETTING. FOR.....	4
ENHANCEMENT: COVER ART ON SEARCH RESULTS AND EDITIONS PAGES	5
ENHANCEMENT: WORLDCAT KEYWORD SEARCH WIDGET	ERROR! BOOKMARK NOT DEFINED.
WORLDCAT LOCAL CHANGE: SEARCHING 776 OCLC NUMBER FROM ASSOCIATED ESERIAL OR EBOOK RECORD.....	6

Enhancement: Saving a Search from a search results page

Now on WorldCat.org and WorldCat Local you can save a search query and return to it from your My WorldCat page.

- Save a search
- Provide a title
- Provide a description

What it means for the user

After logging in to your WorldCat.org account, you can save a search from the search results page. This search will be saved to a new Saved Searches page in your My WorldCat pages. From there you can rerun the search with a single click. You can also see, on that page, if the number of results have increased or decreased.

Saving a search such as cancer awareness articles, in English, from 2008 would store a query similar to this:

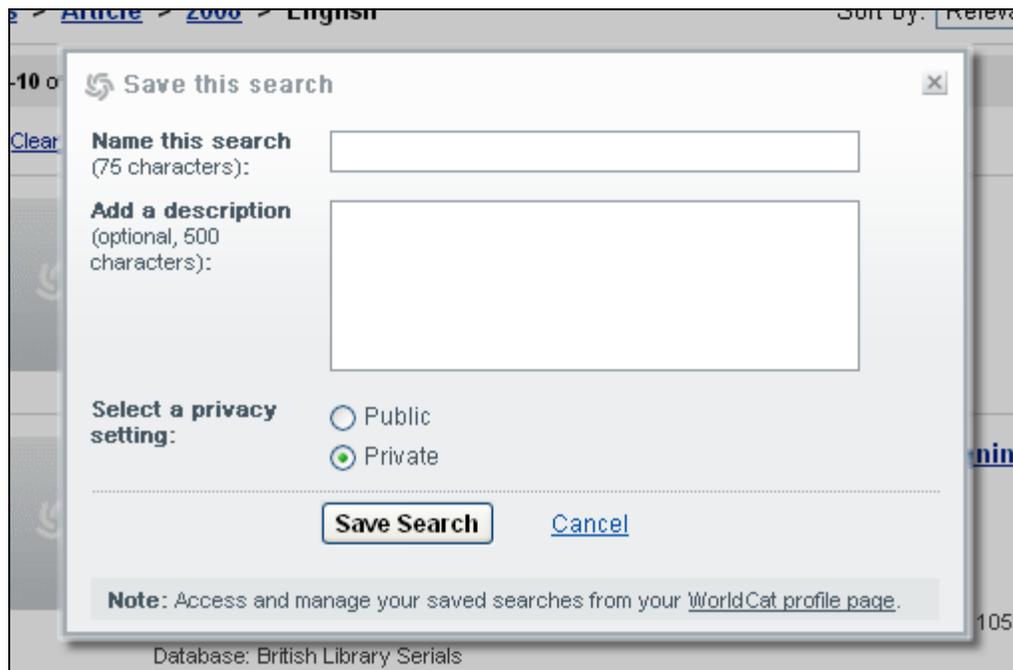

```
http://...worldcat.org/search?q=cancer+awareness&fq=dt%3Aart+%3E+yr%3A2008+%3E+ln%3Aeng&qt=facet_ln%3A
```

Example:

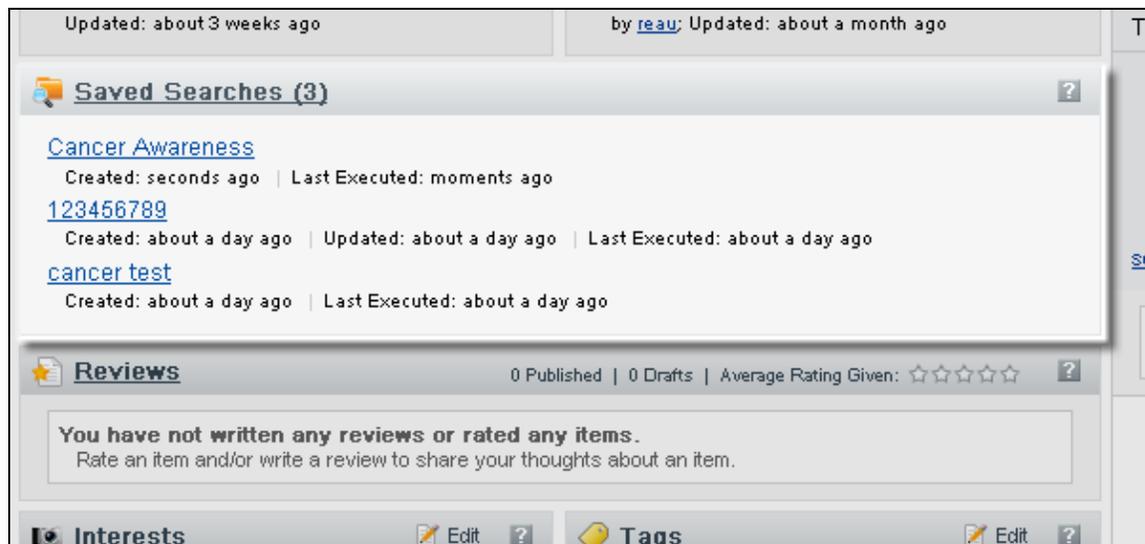

You select Save Search from here:

The screenshot shows a search results page for 'cancer awareness' with filters for 'Article', '2008', and 'English'. The search results are sorted by 'Relevance'. A 'Save Search' button is highlighted with a red box. The first result is 'Breast cancer awareness among older women' by Linsell L., Burgess C.C., and Ramirez A.J., published in the British Journal of Cancer. The second result is 'Knowledge of Cervical Cancer, Awareness, and Attitude to Screening Among Patients at a Cytology Clinic [102]' by O A Akinlaja and R I Anorlu.

And then provide a name and an optional description (notice that all saved searches default to private but you have the option of making the search public to share research and resources):

Once you've successfully saved your search, you can view it in all of your other saved searches from your My WorldCat page:

Or from your My Saved Searches page:

1 - 2 out of 2 saved searches				
Name / Description	Results	Search Query	Privacy	Actions
<p>Cancer Awareness</p> <p>Study of safe habits and lifestyle choices for increasing awareness of cancer and its potential causes.</p> <p>Updated: seconds ago Created: moments ago Last Executed: moments ago</p>	<p>62</p> <p>No new items</p>	<p>Keywords: cancer awareness Format: Article Year: 2008 Language: English</p>	Public	<p> Settings</p> <p> Delete</p>
<p>Sunlight Exposure</p> <p>Resources to evaluate causal relations between activities/lifestyles and cancer rates.</p> <p>Updated: seconds ago Created: about a day ago Last Executed: about a day ago</p>	<p>1 ▲ 1279</p>	<p>Keywords: cancer awareness</p>	Public	<p> Settings</p> <p> Delete</p>

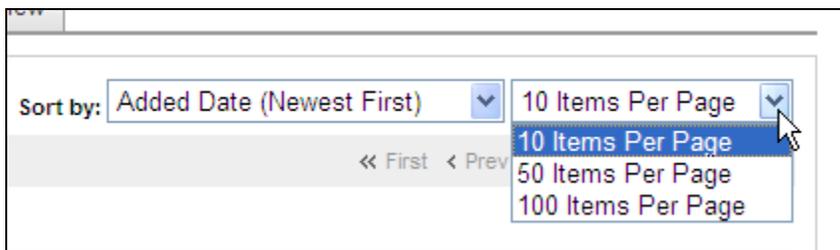

Enhancement: More Display Options for Lists

Now you can view 10, 50 or 100 items in your list from the Details and Notes view. (As always you can view your complete list in Citation View.)

What it means for the user

You can see a more! More notes. More tags. More items!

Example:

Enhancement: Larger Lists Sizes

WorldCat.org Lists now support up to 500 items.

What it means for the user

Larger lists sizes mean more complete bibliographies. The larger lists also mean that you can finally catalog your whole personal collection, or for those of you with (very) large collections you can catalog a whole subject in one list.

Enhancement: View Counts on Lists and Profiles

Now you can see how many times other WorldCat users have viewed a public list or a WorldCat profile.

Example:

'Cancer' by [bobrobboy](#)

by WorldCat users.

Enhancement: Library Affiliation Privacy Setting.

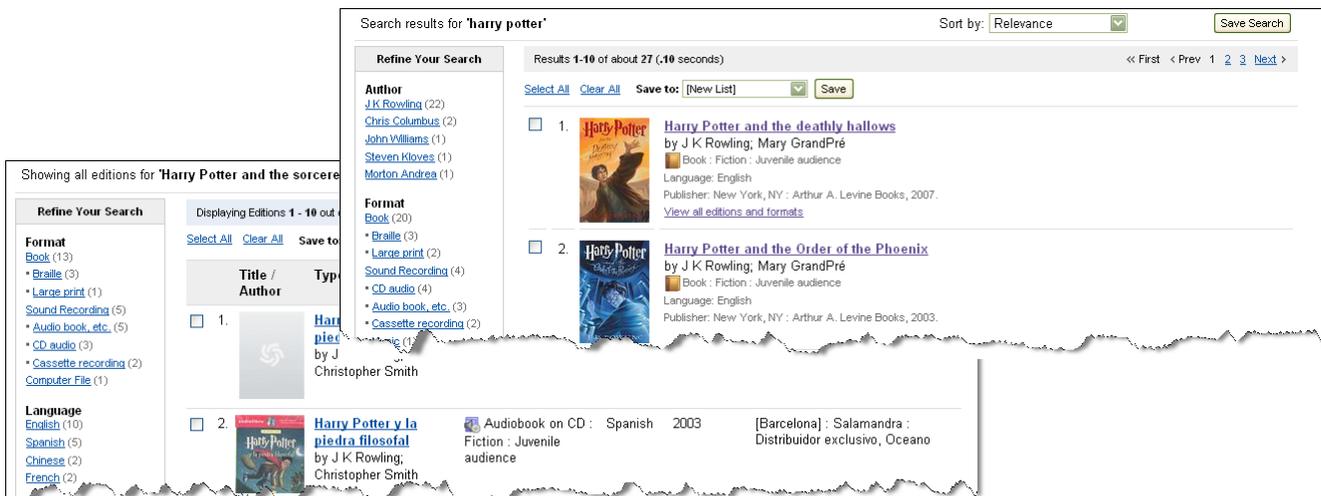

For WorldCat Local users that log in to a WorldCat account, we are creating a private affiliation to that institution (via the favorite library feature). If you like to share your affiliation with the WorldCat community on your user profile, please switch this setting to public.

Example:

Enhancement: Cover Art on Search Results and Editions pages

Example:

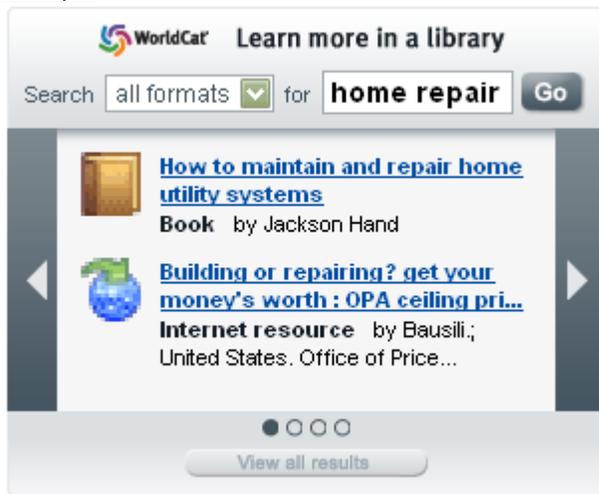

Enhancement: WorldCat Keyword Search Widget

We are continuing to enhance the WorldCat widget library; let visitors to your subject-specific Web page review top results for related library-owned items in a compact widget. Scrollable results include links to the WorldCat.org detailed record for each item.

To install this widget, navigate to the WorldCat Affiliate area (<http://www.worldcat.org/wcpa/content/affiliate/default.jsp>), copy the code provided and replace "keyword" at the end of the script URL with your desired keyword(s).

Example

WorldCat Local Change: Searching 776 OCLC number from associated eSerial or eBook record.

What it is:

Many libraries utilize the single record approach and thus do not have holdings set on eSerial and eBook records but have holdings set on the print record. As a result, WorldCat Local users who land on an e-Serial or eBook record do not see availability or fulfillment. The user has to find the record for the physical copy to see item availability and fulfillment for both the electronic and physical version.

What it means for the user:

For records with item type eSerial or eBook, that are not held by a library according to WorldCat holdings, the 776 field (if present in the MARC record) will now be checked for holdings. If holdings are found availability and fulfillment will be displayed based off searching the 776 and finding a match in the local OPAC. With this change, the WorldCat Local user will now get availability and fulfillment options by either landing on the physical or electronic version record.
